PRIORITIES FOR REFORM: ANSWERS FROM BDA AND BDI (GERMANY)

	Policy Area	Concrete Recommendations	Are the proposed recommendations already in the agenda of your Government?	
			Yes	No
Priority 1	18	Public investment as a percentage of GDP is relatively low in Germany (in an EU-wide comparison); public infrastructure (e. g. traffic infrastructure) has to be improved.	X	
Priority 2	11	The German lawmaker has urgently to establish the legal basis for the principle of one firm - one collective agreement ("Tarifeinheit"). Otherwise, the collective bargaining system might destroy itself.	X	
Priority 3	12	It is important to improve incentives to re-integrate job-seekers into the labour market, e. g. through higher allowances. In addition, a better utilization of the domestic workforce is necessary. At the same time, for demographic reasons, immigration of qualified employees has to be intensified.	X	
Priority 4	3	It is still necessary to increase expenditures for research and development and to implement a R&D tax credit scheme. We have to create a positive climate for innovation within society and boost STEM-qualifications to improve the supply of skilled employees.	X	
Priority 5	6	It is crucial to develop energy and telecommunications nets (inter alia to achieve our goals concerning climate protection and to secure the basis for future (industrial) growth). With regard to the energy sector, it is - amongst other things - necessary to accelerate planning procedures.	X	

Policy areas
1. Business Environment - Regulatory barriers to entrepreneurship
2. Business Dynamics - Start-up conditions
3. R&D and Innovation
4. ICT
5. Competition policy framework
6. Sector specific regulation (telecom, energy)
7. Market integration - Openness to trade and investment
8. Active labour market policies
9. Job protection
10. Labour supply measures for specific groups (older workers, women...)
11. Wage bargaining and wage-setting policies
12. Labour market mismatch and labour mobility
13. Making work-pay: interplay of tax and benefit system
14. Pension and health care reforms
15. Quality of fiscal institutions and budgetary framework
16. Consolidation of public expenditures
17. Public sector efficiency
18. Public investment
19. Tax reforms
20. Access to bond markets
21. Access to equity markets
22. Venture capital and SME financing instruments
23. Bank lending conditions
24. Long term investment instruments
